

Bolot Bekbolotov

Mobile Developer

+996707020464 | [Linkedin](#) | bekbolotov.bolot@gmail.com | TG: [@bekbolotovBolot](#)

Objectives

- 7 years experience of developing applications on Android Platform and Flutter.
- I have great algorithms and data structures problem solving skills.

Technologies

- **Programming languages**
 - C++, Java, Kotlin, Dart
- **Frameworks**
 - OkHttp, Retrofit, Room,, Dagger 2, Socket IO, Coroutines, Flutter, Bloc, Hive

Experience

[MDigital](#) - Bishkek, Kyrgyzstan

September 2024 - present(18 months)

Flutter developer

- Developed an event managing app that has features like calendar, chat and app for tracking credit scores from start to stores publishing
- Participated in development and support of classified apps that has 1m users

[Mancho](#) - Bishkek, Kyrgyzstan

January 2024 - September 2024(9 months)

Flutter developer

- Participated in development of an e-payment system and brought it to the markets which used currently by 300 users

[Breez_Pro](#) - Bishkek, Kyrgyzstan

June 2021 - October 2023(2 years 5 months +)

Android developer

- **Kulikov App**
 - Developed the "Kulikov" application for a confectionery store which has 500k+ downloads.
 - Implemented features for online cake ordering and bonus collection.
- **Osmon Moving&Storage**
 - Worked on the application for a cargo company.
 - Managed employee data, cargo records, and expenses.
 - Developed a salary calculation system based on collected data.
- **Intersport**
 - Developed the application for the "Intersport" clothing store.
 - Enabled online shopping and bonus management.
- **Hypermarket Globus**
 - Contributed to the development of the application for a major Russian hypermarket chain which has over one million downloads
 - Worked on features related to online product ordering and redesign.
 - Successfully extracted important functions from archived code and resolved conflicts when integrating them

[Ogogo](#) - Bishkek Kyrgyzstan

March 2021 - June 2021(3 months +)

Android developer

- Worked on a taxi application: bug fixes, redesign.
- Replaced sockets with the Socket IO library to resolve socket issues.

[NurTelecom](#) - Bishkek, Kyrgyzstan

March 2019 - March 2021(2 years +)

Android developer

- Participated in the development of an e-payment system for a mobile company which is used by 300k users and over 1 million downloads.
- Worked on features such as loyalty card storage, registration of subscribers from other mobile operators, display of payment locations on the map, QR code scanner, and implemented a dark theme feature.

Achievements

- 3 - place in Republic Olympiad in Informatics 2016
- 3 - place in Republic Olympiad in Informatics 2017
- Participation in International Olympiad in Informatics(IOI) 2016, 2017

- Participation in Acm ICPC, NEERC - Northern Eurasia Finals
- <http://stats.ioinformatics.org/people/5946>
- <https://neerc.ifmo.ru/archive/2017/standings.html>

2018

Data Structures & algorithms

- 300+ problems solved at acmp <https://acmp.ru/index.asp?main=user&id=114567>
- 400+ problems solved at Codeforces <https://codeforces.com/profile/bekbolotov.bolot>
- 100+ problems solved at LeetCode <https://leetcode.com/bekbolotovBolot>
